Grow with Elegance.

Drive the Ertiga
and experience true elegance.
It's designed in every detail so you can
enjoy a vibrant, active lifestyle
with your loved ones.
But it does much more than that.
It's a vehicle that rewards you in
every dimension – personally,
aesthetically, and emotionally –
so you can grow with elegance
every time you drive.

With its aerodynamic body and sleek, flowing lines, the Ertiga carries you to your destination in real style. From the front, the vehicle's bold and distinctive visage heralds your approach with dynamic elegance, attracting admiring looks wherever you go.

Popping out to the shops or cruising the boulevards, you'll always look elegant in your Ertiga. With polished alloy wheels, stylishly sculptured tailgate trim and subtly contoured rear combination lamps, it makes you want to dress up just to go for a drive.

Surround yourself with quality

The Ertiga welcomes you to the cabin with smart, upscale dashboard and door trim, richly textured two-tone upholstery, and state-of-the-art instrumentation. The D-shaped steering wheel with integrated audio system controls and premium quality design accents lets you stay fully in command on winding roads and busy city streets.

Easy touch panel audio system

The audio system displays vehicle information and links with your smartphone via Bluetooth® for music playback and hands-free calling. What's more, you can connect it to your smartphone to access maps, messaging, and other supported smartphone functions by voice command or a tap on the audio system touch panel.

Bluetooth® music player

Vehicle information

Apple CarPlay®

Android Auto™

*Apple CarPlay is supported in the countries listed at the following link:
<https://www.apple.com/ios/feature-availability/#applecarplay-applecarplay>

*For more details, including iPhone® models and iOS® versions compatible with Apple CarPlay, see: <https://www.apple.com/ios/carplay/>

*Apple, Apple CarPlay and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries.

*Android Auto is supported in the countries listed at the following link:
<https://www.android.com/auto/>

*To use Android Auto on your car display, you'll need an Android™ phone running Android 6 or higher, an active data plan, and the Android Auto app.

For more details, see: <https://g.co/androidauto/requirements>

Cruise control

Cruise control can be activated via a button on the steering wheel, allowing you to release the accelerator pedal during highway driving to reduce fatigue on long trips.

Stylish meter cluster

The elegant speedometer, tachometer and colour LCD centre information display keep you clearly informed of vital information. Subtle design details and a precision finish contribute to driving pleasure.

Maximum comfort and configurability

The Ertiga provides comfortable seating for up to seven people. The seats are arranged in three rows and can be easily reconfigured to suit the needs of the moment, whether you're carrying your family and friends, recreational gear, or other bulky items. Whenever your seating needs change, the Ertiga offers a simple, practical solution.

*The image shows a family taking a break while in a parked car.

Ample space, flexible seating

Fold one third-row seatback down to increase luggage space while still comfortably seating six people.

All seatbacks in the second and third rows can be folded down to carry bulky items or recreational gear.

Extra-long objects can be carried by folding down the seatbacks of the front passenger seat and the second- and third-row seats behind it.

Note: Items are loosely placed in the rear storage area for illustrative purposes only and should be properly secured while driving.

Room for all your things

The Ertiga gives you plenty of space to carry things even when every seat is occupied. Whether you're heading for the airport with all your luggage or just going to the store for groceries, there's room enough for everything you need. What's more, the wide and tall tailgate opening ensures quick, easy loading and unloading.

Easy-to-access luggage space

The rear luggage area has a capacity of 199-litres* and the versatile 50:50 split luggage board offers concealed storage for small valuable items when lowered, and additional room for tall items when removed.

*Measured with the luggage board lowered using the German Association of the Automotive Industry (VDA) method.

Class-above cabin amenities

The Ertiga's elegantly appointed cabin surrounds you with all the amenities of a home-away-from-home. The powerful front and rear air conditioning system ensures even airflow throughout the cabin so everyone aboard stays comfortable on long trips. Quality is apparent in every detail, with thoughtful touches you'll appreciate every time you drive.

Powerful rear air conditioner

Ventilated cupholders*

To help maintain the temperature of your beverages, just put them in the ventilated cupholders, set the air conditioner to Face or Face/Foot mode, and open the cupholder vents.

*Available on GLX model

Keyless push start system*

When carrying the remote-control key, you can lock or unlock the doors with the press of a door button, and start the engine by pressing the engine start button.

*Available on GLX model

Automatic front air conditioner (Available on GLX model)

Banknote / coin holder

USB port and accessory socket

Front seatback pocket (Passenger-side only on GL model)

Accessory socket for second-row seats

1,000ml bottle holders for third row

Driver's seat height adjuster

Easy walk-in mechanism and sliding second row seats

The Ertiga is designed to meet the changing lifestyle needs of growing families. In town or on the highway, on short trips or vacation getaways, the Ertiga offers a satisfying driving experience and a more elegant way to travel.

Command performance

Driving the Ertiga you're in command of a smooth and responsive engine equipped with an SHVS mild hybrid system. Whether you're commuting, heading out on vacation, or just going shopping, the Ertiga responds immediately and precisely to your input with satisfying, fuel-efficient power.

Powerful, fuel-efficient 1.5-litre petrol engine

Spirited response meets high fuel efficiency in the Ertiga's compact 1.5-litre petrol engine. Producing impressive torque for quick acceleration, it features proven Suzuki technology in every detail.

Engine type	K15B
Displacement (cm ³)	1,462
Compression ratio	10.5
Max. output (kW/rpm)	77/6,000
Max. torque (N·m/rpm)	138/4,400

4-speed automatic or 5-speed manual transmission

The Ertiga gives you the choice of a stress-free, silky-smooth 4-speed automatic transmission or a spirited and responsive 5-speed manual transmission. Whichever you choose, you get excellent fuel efficiency and power delivery.

SHVS mild hybrid system with lithium-ion battery power and electric assist

The Ertiga is equipped with an SHVS mild hybrid system for enhanced energy efficiency. The SHVS system assists the engine using a light, compact integrated starter generator (ISG) and a high-efficiency lithium-ion battery with high charging and power supply performance. The ISG not only ensures quick and quiet engine restarts, it also provides electric motor power assistance for fuel-efficient acceleration, and generates power to charge the batteries when decelerating.

Engine auto stop

At traffic lights, electrical components are powered by batteries while the engine stops to conserve fuel.

Restart

The ISG functions as a starter motor to quietly and smoothly restart the engine.

Take-off / Acceleration

The ISG assists the engine* when starting from a standstill or when accelerating, improving fuel efficiency.
* Operation varies according to battery status and other conditions.

Deceleration

The ISG uses deceleration energy to generate electricity and efficiently charge the vehicle's batteries.

HEARTECT

HEARTECT platform

The smoothly curving frame increases underbody stiffness that delivers excellent fundamental vehicle performance while also contributing to collision safety by efficiently dispersing energy.

Aerodynamics

Computer-aided engineering and wind-tunnel testing ensure exceptional aerodynamics for an MPV, with a low drag coefficient for enhanced performance and fuel economy.

Lightweight, robust suspension

Even on bumpy roads and in tight turns, the Ertiga's high-tensile steel suspension – with MacPherson struts in front and a torsion beam in the rear – provides a stable, comfortable ride for everyone on board.

Safety measures for your peace of mind

The Ertiga is equipped with an array of features to help enhance safety for the driver, passengers, and even pedestrians. From fundamental structural features to protect cabin integrity in the event of a collision, to advanced assistive technologies to help you maintain traction and steering control, the Ertiga is built with safety in mind.

Automatic lamps

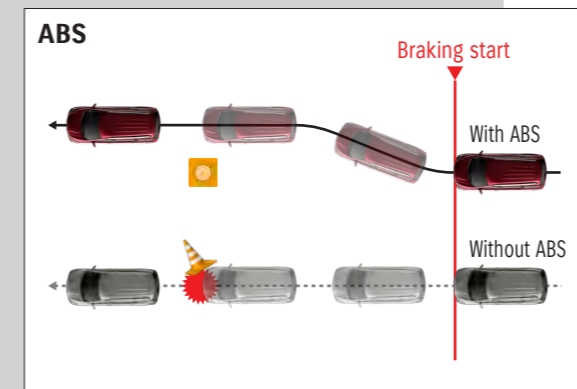

To ensure higher visibility in tunnels, indoor car parks and other low-light conditions, the headlamps and small lamps automatically turn on and off as needed. The automatic lamps are enabled whenever the combination lamp switch is in the AUTO position.

Electronic Stability Program (ESP®)*

The Ertiga is equipped with ESP to help you control the vehicle during cornering, and assist you in maintaining traction when accelerating on loose or slippery road surfaces. If wheel slip is detected, ESP automatically regulates engine output and selectively applies the brakes to help you maintain control.

*ESP® is an assistive technology; it does not reduce the need to practice safe, careful driving. ESP is a registered trademark of DaimlerChrysler AG.

Anti-lock Braking System (ABS)

In an emergency braking situation, ABS keeps the wheels from locking up to prevent skids and assist you in maintaining steering control.

*ABS is an assistive technology; it does not reduce the need to practice safe, careful driving.

Reverse parking sensor and rearview camera*

Ultrasonic sensors in the rear bumper detect obstacles when in reverse gear, and audible alerts sound to indicate your approximate distance from the obstacles as you approach. The GLX model is even equipped with a camera that shows the view to the rear on the audio system display.

*Assistive technologies are not a replacement for safe driving. Drivers should make every effort to drive safely by adapting their driving to weather and road conditions, staying alert to the presence of nearby vehicles and pedestrians, and following safe driving practices. When operating the vehicle, do not rely on sensors or assistive technologies. Always check the safety of the surrounding area using rearview mirrors or direct observation. Please refer to your owner's manual for additional information about assistive technologies and safe driving.

SRS airbag system

The Ertiga comes standard with front SRS airbags to help protect the driver and front-seat passenger in case of a frontal collision.

Highly protective body

Suzuki's advanced Total Effective Control Technology (TECT) body extensively employs ultra high-tensile steel to increase rigidity, reduce weight, and more efficiently absorb and disperse impact energy in the event of a collision. Impact load paths underneath the engine compartment further mitigate damage in the event of a frontal collision at higher speeds.

Pedestrian injury mitigating body

The Ertiga's bonnet, front bumper, front windscreen wiper area, and other front-end components are designed to absorb impact with the aim of mitigating head and leg injuries in the event of a collision with a pedestrian.

Note: SRS (Supplemental Restraint System) airbags are designed to supplement the use of seat-belts; they are not a replacement for proper seatbelt use. Seatbelts should be worn and properly fastened at all times. SRS airbags may not activate in some conditions. Please refer to your owner's manual for additional information about SRS airbags and safe driving.

Grow with Elegance.

Enjoy life at your own pace,
relaxed and unhurried.
Savour the freedom of mobility and
the joy of sharing special moments
with the ones you love.
Grow with elegance and experience
the driving satisfaction
you've always dreamed of.
Welcome to the land of Ertiga.
