XL7 BROCHURE (G)
99999-B1702-001 2303

Just like you,
the XL7 is solid, resilient,
and ready to meet
any challenge.
Quick and nimble with
bold, dynamic styling and
a distinctive profile,
it shows the world
you're serious even
when you're having fun.

Solid & Resilient

Make a strong statement

From the front, the XL7 immediately stands out from the crowd. Bold, dynamic, SUV styling with rugged chrome grille accents and sleekly integrated LED headlamps are set off by flowing shoulder and body lines that emphasise the vehicle's athletic stance.

With its swept-back aerodynamic profile, metallic-finish roof rails, polished alloy wheels and stylish lamps, the XL7 has a sporty appeal all its own. Yet it's also solidly practical, with a spacious cabin that seats up to seven people in comfort. It's a car that will draw admiring looks wherever you go, and make you proud to own and drive it for years to come.

Put yourself in the driver's seat and exercise confident control over every mile of your journey. Whether you're traveling alone or with friends or family, the XL7 lets you follow the compass of your heart.

Solid & Resilient

The road is your own

The XL7's sporty character is reflected in its stylish black interior and silver metallic door accents, and the ergonomically designed cockpit ensures that essential controls are right at your fingertips. In addition, conveniently positioned cabin amenities contribute to the comfort of everyone on board.

Cruise control

Cruise control can be activated via a button on the steering wheel, allowing you to release the accelerator pedal during highway driving to reduce fatigue on long trips.

Front sliding armrest with storage

Second-row accessory socket and smartphone holder

Keyless push start system

When carrying the remote-control key, you can lock or unlock the doors just by pressing a door button, and start the engine simply by pressing the engine start button.

Bill and coin holder with partition

Door pockets with 1-litre bottle holder (on all four doors)

Third-row accessory socket and 1-litre bottle holder

Stylish and sporty meter cluster

Instrumentation includes an easy-to-read speedometer and tachometer with sub-dials for engine temperature and fuel level, as well as a 4.2-inch multi-information colour LCD in the centre that offers a variety of display options to show door status, fuel consumption, exterior temperature, or other information of your choosing.

Easy touch panel audio system

The audio system has a customisable 7-inch touch panel that can display vehicle information and be linked to compatible devices via Bluetooth® for hands-free calling and music playback. It can also be linked to a smartphone via Wi-Fi® or USB to access supported apps for navigation, messaging, and other functions by voice command or the touch panel interface.

*Apple CarPlay is supported in the countries listed at the following link: <https://www.apple.com/ios/feature-availability/#applecarplay-applecarplay>. For more details, including iPhone® models and iOS® versions compatible with Apple CarPlay, see <https://www.apple.com/ios/carplay/>.
 *Android Auto is supported in the countries listed at the following link: <https://www.android.com/auto/>. To use Android Auto on your car display, you'll need an Android phone running Android 8 or higher, an active data plan, and the Android Auto app.
 *Apple, Apple CarPlay, iPhone and Siri are trademarks of Apple Inc., registered in the U.S. and other countries.
 *Google, Android, Android Auto, YouTube Music and other marks are trademarks of Google LLC.
 *Bluetooth is a registered trademark of Bluetooth SIG, Inc.
 *Wi-Fi is a registered trademark of Wi-Fi Alliance®.

Ventilated cupholders

To help maintain the temperature of your beverages, just put them in the ventilated cupholders, set the air conditioner to Face or Face/Foot mode, and open the cupholder vents.

Front and rear air conditioning

The powerful front and rear air conditioning system includes an automatically adjusted air conditioning unit for the driver and front-seat passenger. In addition, a separate ceiling-mounted, manually switchable air conditioning unit with independent fan control ensures passengers in the second and third row seats stay comfortable, too.

Get up and go, whenever and wherever you want. With three-row seating that can be quickly reconfigured to suit any business or recreational need, the XL7 is designed to help you enjoy a healthy work-life balance.

Solid & Resilient

Seat height adjuster

Easy walk-in mechanism and sliding second row seats

Room for everyone and their gear

The spacious cabin seats up to seven people in comfort and has a wide tailgate opening that provides easy access to the luggage space at the rear. Seating can also be quickly reconfigured to accommodate long or bulky items and recreational gear. *Loosely placed items in the photos below are shown for illustrative purposes only; all items should be properly secured when driving.

You know what you want to do in life, and Suzuki technology gives you the power to do it with safety and confidence. On straightaways and twisting mountain roads, the XL7's performance never disappoints.

Solid & Resilient

HYBRID

SHVS mild hybrid system for enhanced energy efficiency

The XL7 features an advanced SHVS mild hybrid system that incorporates a light, compact integrated starter generator (ISG) and a high-efficiency lithium-ion battery with excellent charging and power supply performance. The ISG not only ensures quick and quiet engine restarts, but also provides electric motor power assistance for fuel-efficient acceleration, and generates power to charge the batteries when decelerating.

Engine auto stop

When you stop at traffic lights, the engine automatically shuts down to conserve fuel while the batteries continue to power electrical components.

Restart

The ISG functions as a starter motor to restart the engine quietly and smoothly.

Take-off / Acceleration

The ISG assists the engine* when starting from a standstill and when accelerating to help improve fuel efficiency.
*Assist function operation varies according to battery status and other conditions.

Deceleration

The ISG uses deceleration energy to generate electricity and efficiently charge the vehicle's batteries.

Automatic lamps

When the combination lamp switch is set to the AUTO position, the headlamps and small lamps automatically turn on and off as needed to ensure higher visibility in tunnels, indoor car parks, and other low-light conditions.

SRS airbag system

The XL7 is equipped with front SRS airbags to help protect the driver and front-seat passenger in the event of a frontal collision.

1.5L petrol engine

Quick response and high fuel efficiency are at your command with the XL7's 1.5-litre engine.

Engine model	K15B
Displacement (cm³)	1,462
Compression ratio	10.5
Max. output (kW/rpm)	77/6,000
Max. torque (N-m/rpm)	138/4,400

HEARTECT platform

The smoothly curving frame increases underbody stiffness that delivers excellent fundamental vehicle performance while also contributing to collision safety by efficiently dispersing energy.

Superior aerodynamics

Computer-aided engineering and wind-tunnel testing ensure a low drag coefficient for excellent aerodynamic performance and fuel economy.

Electronic Stability Program (ESP®)*

ESP technology helps you control the vehicle during cornering, and assists you in maintaining traction when accelerating on loose or slippery road surfaces. If wheel slip is detected, the ESP system automatically regulates engine torque and selectively applies the brakes to help you maintain control.

*ESP® is a registered trademark of Mercedes-Benz Group AG. The ESP® is designed to help keep the car under control. However, its effectiveness depends on driving conditions and the state of the road surface. If the tyres exceed their grip limit and the wheels start to spin or skid, it may not be fully effective.

Reverse parking sensors

Ultrasonic sensors in the rear bumper detect obstacles when reversing, and warning sound to indicate the obstacle's proximity.

Hill hold control

When starting out on an uphill incline, hill hold control prevents the vehicle from rolling backward for approximately two seconds to give you time to move your foot from the brake pedal to the accelerator pedal.

Solid & Resilient

The world is full of excitement. And with your hands on the steering wheel of an XL7, you can explore it in style. In town and on the open road, it's a car that makes the driving experience uniquely your own.
